DECLARATION OF  
RICHARD G. BERGERON

1. I am an Attorney in the Division of Business and Administrative Law, Office of the General Counsel, Department of Health and Human Services (the "Department"). I am familiar with the official records of administrative tort claims maintained by

-2-

the Department as well as with the system by which those records are maintained.

2. The Department's Program Support Center has a Claims Branch that maintains in a computerized database a record of all administrative tort claims filed with the Department, including those filed with respect to federally supported health centers that have been deemed to be eligible for Federal Tort Claims Act malpractice coverage.

3. Plaintiffs filed an administrative claim on May 29, 2002; to date no final disposition has been made.

4. I have also reviewed official agency records and determined that Community Health Foundation of Man, West Virginia, Inc., was deemed eligible for Federal Tort Claims Act malpractice coverage effective July 1, 1996 and that its coverage has continued without interruption since that time. A copy of the notification by an Assistant Surgeon General, Department of Health and Human Services, to Community Health Foundation of Man, West Virginia, Inc., is attached to this declaration as Exhibit 1.

5. Official agency records further indicate that Plaridel Tordilla, M.D., was an employee of Community Health Foundation of Man, West Virginia, at all times relevant to Plaintiff's claim.

I declare under penalty of perjury that the foregoing is true and correct. 28 U.S.C. § 1746.

Reference: Malpractice Liability Coverage

The Bureau of Primary Health Care (BPHC), in accordance with Section 224(h) of the Public Health Service (PHS) Act, 42 U.S.C. 233(h) as amended by the Federally Supported Health Centers Assistance Act of 1995 (Pub.L. 104-73), deems the above named entity to be an employee of the Federal Government, effective July 1, 1996, for the purposes of Section 224. Section 224(a) provides liability protection under the Federal Tort Claims Act (FTCA) for damage for personal injury, including death, resulting from the performance of medical, surgical, dental, and related functions and is exclusive of any other civil action or proceeding. This "FTCA coverage" is applicable to deemed entities and their including officers, governing board members, employees, and contractors who are physicians or other licensed or certified health care practitioners working full-time (minimum 32.5 hours per week) or part-time providing family practice, general internal medicine, general pediatrics, or obstetrical/gynecological services.

Section 224 further provides that hospital admitting privileges cannot be denied on the basis of having malpractice coverage under the FTCA, if a covered health care professional meets the appropriate professional qualifications, and agrees to abide by the hospital bylaws and the rules, and regulations of the medical staff. Moreover, managed care plans are required to accept FTCA as meeting whatever malpractice insurance coverage requirements such plans may require of contracting providers. Hospitals and managed care plans that fail to comply shall be in jeopardy of losing Medicare and Medicaid reimbursements.

In addition, FTCA coverage is comparable to an "occurrence" policy without a monetary cap. Therefore, any coverage limits that may be mandated by other organizations are met. For example, a \$1.0 million each claim/\$3.0 million aggregate occurrence is met since FTCA would, as appropriate, provide for the payment to a plaintiff of any damages awarded as a result of a judgment or a settlement approved by the Attorney General, sums in excess of this amount.

For further information, please contact CAPT Marty Bree, Regional FTCA Coordinator, HRSA Field Office, Philadelphia, Pennsylvania at (215) 596-6655.

Sincerely yours,

Marilyn H. Gaston, M.D.
